Training offers

(Lessons can be held in English, Afrikaans or German)

Find the right course for your skill level:

Individual lessons

Individual instruction allows maximum flexibility and individuality of a training session. The classic form of golf instruction offers the opportunity to discuss all facets of golf and adjust according to your needs.

Group Training

The group training allows the student time to practise in between been instructed, and get corrected during the lesson.

There is simply more fun with friends to pursue a common hobby, and to motivate each other in moments of weakness.

I offer **group training** - **individual lessons** and **on course management**

- for all **beginners** (**practice clubs available**)
- for **golfers who want to get back into playing golf after a break**
- for **advanced players**

Pricing structure:
